

## \*Colours

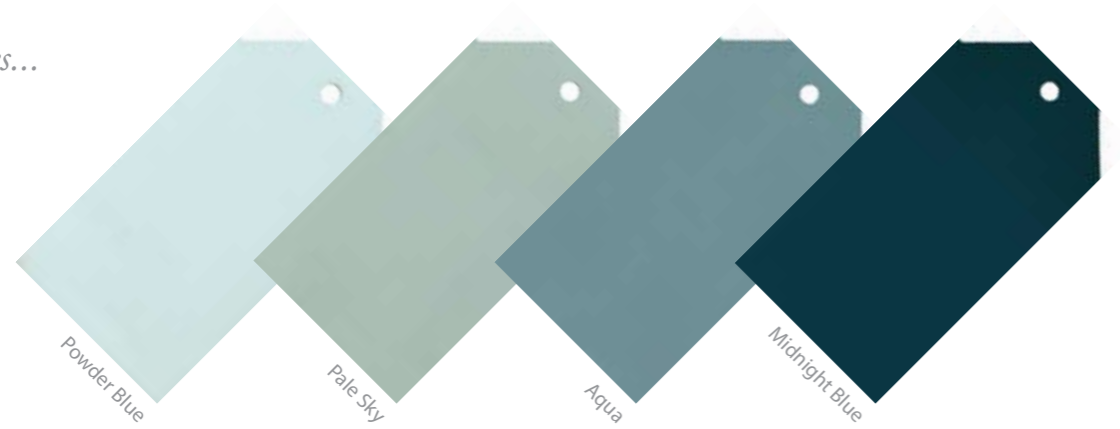

Every piece of Dorchester furniture is hand painted, conferring a definite lustre and patina. We offer our Dorchester furniture in a choice of 20 colours with Limestone as the standard offering. Repainting with any of the other 19 colours entails a painting service charge. This is priced in three bands according to the furniture proportions and includes the paint. Our colour palette is designed to work harmoniously together, so that you can truly make your furniture your own. We offer an emulsion for walls and eggshell for furniture and doors or skirting. The interior of all of our cabinets are painted a standard base tone throughout. Re-painting the interior is not part of our re-painting service.
